Privacy Policy

Effective Date: April 04, 2026

Your privacy in plain English: GSOTiQ stores all your data on your device only. We do not collect, transmit, or sell any of your personal information. No accounts are required to be linked to external services. No analytics or advertising SDKs are included.

1. Introduction

GSOTiQ ("we," "our," or "the App") is a personal goal-management application developed by Scott Stukel. This Privacy Policy explains what information GSOTiQ accesses, how it is used, and the choices you have regarding your data.

By using GSOTiQ, you agree to the practices described in this policy. If you do not agree, please discontinue use of the App.

2. Information We Collect

Information you provide directly. GSOTiQ stores only the content you create within the App, including:

- Your account name and email address (stored locally on your device)
- Goals, Strategies, Objectives, Tactics, and Tasks you create
- Due dates, priorities, notes, and status updates you enter
- A security question and answer used for local password recovery

Information we do NOT collect. GSOTiQ does not collect, transmit, or store any of the following on external servers:

- Location data
- Device identifiers or advertising IDs
- Usage analytics or crash reports
- Contacts, photos, camera, or microphone data

- Any data from other apps on your device

3. How Your Data Is Stored

All data you enter into GSOTiQ is stored exclusively on your device using Apple's and Google's standard secure local storage mechanisms. Your data is **never transmitted to our servers** and is not accessible to us at any time.

Passwords are stored as one-way cryptographic hashes (SHA-256). This means your password cannot be read or recovered even with direct access to the stored data — only you know your password.

If you delete the App from your device, all associated data is permanently removed. We recommend using the Export feature in your Profile screen to maintain a personal backup before uninstalling.

4. Push Notifications

GSOTiQ may request permission to send you local push notifications as due-date reminders for your goals, tactics, and tasks. These notifications are scheduled entirely on your device — no notification data is sent to or processed by external servers.

You may enable or disable notifications at any time through your device's Settings app under GSOTiQ.

5. Third-Party Services

GSOTiQ does not integrate with any third-party analytics, advertising, or tracking services. The App is built on the Expo / React Native framework. Expo's framework libraries are used solely to render the application and do not independently collect or transmit your personal data.

6. Your Rights: Data Export and Deletion

You have full control over your data at all times:

- **Export:** Use the Export feature in your Profile screen to download a complete copy of all your data as a portable file.
- **Import:** Restore your data at any time using the Import feature in the Profile screen.
- **Delete:** Uninstalling GSOTiQ from your device permanently deletes all associated data. Individual goals and items can be deleted from within the App.
- **Account deletion:** You may delete your local account and all associated data by uninstalling the App.

7. Children's Privacy

GSOTiQ is not directed at children under the age of 13. We do not knowingly collect personal information from children under 13. Because all data is stored locally on-device and never transmitted to us, we have no mechanism to identify or collect information about any user's age. If you believe a child has used the App, simply uninstalling it will remove all data.

8. Security

We take reasonable steps to protect the data within the App. Passwords are hashed and never stored in a recoverable form. Because your data never leaves your device, the primary security of your data depends on the security of your device itself. We recommend using a device passcode or biometric lock.

9. Changes to This Policy

We may update this Privacy Policy from time to time. When we do, we will revise the Effective Date at the top of this document and post the updated policy. Continued use of GSOTiQ after any changes constitutes acceptance of the revised policy.

10. Contact Us
